DUAL WAND CLEANING SPEED WITH ONE MAN OPERATION

The new Rotovac Wide Track is a 24 inch wide Rotary Extraction tool for high speed cleaning of large areas. Dual rotary jet extraction cleaning heads utilize six vacuum slots and six spray jets to produce thorough, restorative cleaning. The cleaning heads spin at an adjustable 0 - 200 r.p.m. The Wide Track operates like a lawn mower and cleans equally in both directions up and back.

Designed for use with any truck mount or dual 3 stage vacuum portables, the Wide Track delivers all the power of your extractor while requiring only one man to operate. The ergonomic dual handle design in combination with the high torque drive motors makes the Wide Track extremely easy to push as it power cleans through heavily soiled areas with ease. The high speed cleaning power of the Wide Track can **cut labor costs by up to 50%.**

TILE & GROUT CLEANING HEADS

Nylon scrubbing brush bristles

6 spray jets

6 flexible rubber squeegee vacuum pickups

CARPET CLEANING HEADS
